

JOHN CABOT UNIVERSITY

NAME*: Cliff

LASTNAME*: Wells

CLASS OF*: Spring 2008 (Michigan State Semester Abroad)

MAJOR*: Finance

NOW I AM*: Civilian Operations Analyst with the US Army in Warren, Michigan

** What brought you to John Cabot University?*

My cousin, Nina Tito, went to Michigan State just like myself and she studied abroad at John Cabot as well. She was a huge influence in my decision to attend JCU and I am so happy I did; it was the best 4 months of my life!

** What was your career path after graduation?*

I took a management trainee position with a company right after graduation and worked there for 1 full year. I just recently accepted a civilian position with the US Army and will be starting there June 2010.

** What about your time at John Cabot shaped you most?*

Most importantly, the friends I made and all the amazing traveling we got to do. Also, I learned a lot about myself and really grew as a person. I am completely sure that I would not be who I am today had I not attended JCU. I find myself reminiscing about the amazing memories and all the good times almost every day.

JOHN CABOT UNIVERSITY

* *What are you working on now?*

I am working on starting my career with the US Army and look forward to the future!

What do you miss most about Rome?

There are so many...walking through St. Peter's Square every day back and forth from school, Old Bridge Gelato, Campo di Fiori, the open air market where I bought fresh food almost every day, trips on the Metro, getting lost in Rome on purpose and having fun finding our way back home

What is the best experience that John Cabot provided you with?

JCU opened my eyes to the world. It gave me the desire to travel and experience different cultures and really just live the dream. There were so many little things that added up to make it the most amazing 4 months of my life and I remember it like it was yesterday.

What is your favourite John Cabot memory?

On our last day in Rome, I visited the very top of St. Peter's with several of my roommates and friends. It was absolutely beautiful out and we could see for miles around the city. I could not have asked for a better way to spend my last day.

If you had the power to change something in the world, what would it be?

Teach people common sense and how to think for themselves again. There are too many people who let the government /other people/etc do their thinking for them and common courtesy/common sense does not exist these days. Also, I think there are way too many lawsuits and nothing ever gets accomplished anymore. People need to start caring about each other again and start taking concrete action.
